FINANCIAL AND COMMERCIAL

PRIDAY, APRIL 15-6 P. M. Owing to the uncertainty in relation to the designs and provements of Secretary Chase, and the prevalent opinion hat the associated banks contemplated soon to inaugu rate anow the system of contracting their loans and disnateady and feverish; but later in the day the distrust regan to wear off, and the depression was partially re-moved. The decline at the first board was greater than has been experienced for some weeks past. New York Coutral went down 3 per cent, Eris Railroad 3%, Eris preferred 1%, Hudson River 5½, Reading 6, Milwaukee and Prairie du Chien 5, Michigan Central 3, Michigan Southern 3%, Illificis Central 5, Cievelaud and Pittsborg 3M, Galeus and Chicago 3M, Cleveland and Toledo 1%, Chicago and Rook Island 3%, Pittsburg and Fort Wayne 25, Alton and Terre Haute 4, Chicago and Northwestern 214, Tolodo and Wabash 114, Paosiic Mail 7, Cumberland Coal 3, Canton Company 15, and Quicksilver Mining 3. It will be seen that the shares of the regular ividend paying stocks suffered equally, if not more se werely than the fancies; but this is one of the eccen tricities of Wall street. Harlem Railroad sold at the first pard for 181, seller thirty days, and for 187 cash.

offered was considerably in excess of the demand. We heard of instances where borrowers refused ofers to lend at six and a half per cent, and it was stated that a num ber of capitalists had concluded to accept six. There are numerous rumors in Wall street in regard to the future ac tion of Secretary Chase, during his stay in this city, relative money matters. We have the best authority for stating that he will do nothing to disturb the present case and quiet of the market, and consequently all apprehension in arisen, one of which is that the banks have decided to call in their loans and to commence the work of con-traction. This we consider equally unworthy of moment's consideration. There is a rivalry the old State institutions and the new national banks, which will prevent any movement of the kind anticipated House. There is sufficient capital among the new banks to counteract any bad effect that the action of the old ones could produce, and, knowing this fact, the latter will not deliberately inaugurate a movement which is calculated to depress the market. In further proof of that we have stated, the president of one of the leading State banks gave it as his opinion to-day that money would be more plenty and the market better supplied during the next two weeks than ever before.

The gold market was less excited to day. It opened news of the capture of Fort Pillow was received, and that wave it an upward turn, and the premium soon reached 74%, from which point it again receded until it had gone down to 72. The speculators then commenced to operate, and it was forced up to 75. The following were the quo tations at the gold exchange:—
